

phoenixNAP
GLOBAL IT SERVICES

AWS DIRECT CONNECT

Enjoy fast & dedicated connection to the world's largest **Public Cloud Platform!**

Meet Arizona's Only AWS Direct Connect Edge Location!

AWS Direct Connect

Your private and instant connection to Amazon cloud services

With AWS Direct Connect, your business can achieve private network connectivity between AWS cloud services and your own environments. Avoid network bottlenecks and security risks from the public Internet to build and utilize highly efficient and safer hybrid environments!

Secure and Robust Connectivity.

PhoenixNAP provides a direct connection of AWS Direct Connect to the AWS West region, offering secure and reliable connectivity from your colocation, private, or hybrid cloud environments.

Low Latency. High Bandwidth.

Experience reliable connectivity to AWS services, bandwidth cost reduction, and avoid bumps created by network congestion. Connect and create resilient hybrid environments.

Secure Data Center and Connectivity.

Leverage AWS and your own infrastructure while maintaining high compliance and performance standards. Use private network connectivity to access AWS cloud services.
