THE ULTIMATE COLOCATION SOLUTION

PhoenixNAP offers you ultra secure, redundant and reliable colocation solutions from multiple locations across the globe.

REDUNDANCY

Making sure that your equipment is on and in a conditioned environment is our number one priority. Critical systems such as the power and cooling infrastructure are redundant to maintain optimal operational levels.

- Redundant power infrastructure
- Redundant UPS system with Generator backup
- Strong SLA and focus on compliance
- Redundant cooling infrastructure

CONNECTIVITY

You have the benefit of carrier neutraility across our global footprint. You can leverage current relationships to connect them to your primary facility, corporate office or remote users around the globe.

- Multiple carriers
- PhoenixNAP own network blend with 100% uptime SLA
- No monthly cross connect fees
- In-house cabling team provides cross connects in 3 business days or less

SECURITY

Our security systems feature multi-level access protocols with biometric verification systems to ensure access is provided only to authorized personnel.

- Access restricted to only your approved staff
- Staff onsite 24x7x365
- Video monitoring and alarm systems throughout each facility
