

Global Data Center-as-a-Service Provider

Accelerate your digital transformation with opex-modeled IT solutions

www.phoenixnap.com

Who Is phoenixNAP?

phoenixNAP is a global Data Center-as-a-Service provider delivering programmable, opex-friendly infrastructure solutions from strategic edge locations worldwide.

Focused on innovation, cyber security, and compliance-readiness, phoenixNAP makes enterprise-grade technologies available at an opex-based model. Our broad service portfolio is designed to help you optimize your mission-critical and high-traffic workloads without the overspend and overhead difficulties of the public cloud or in-house IT.

Arizona's First AWS Direct Connect and Google Cloud Interconnect Location
